Change to permit availability for Unit 22 moose hunt RM843

Permits for the RM843 moose registration permit hunt will only be available in-person at license vendors in Golovin and White Mountain beginning December 1. COVID-19 related travel restrictions may present challenges to hunters interested in obtaining a permit for the RM843 hunt, particularly for hunters living outside the RM843 hunt area.

The Department announces the following exception to the availability of permits for the RM843 hunt:

- Many rural communities have adopted COVID-19 travel mandates that prohibit visitors from entering their community without prior approval. As an alternative, hunters that travel by snow machine or aircraft to White Mountain or Golovin after December 1 may take a picture of themselves at the community airport and submit it to the Department. Upon presenting the photograph to ADF&G the hunter will be issued a permit.
